// CAREER GOALS

Firstly, I want to make myself better day by day, learning at school is not enough tho, so If I'm a part of the company, the road that I go is more shiner.
Secondly, I surely want the company will grow bigger, all around Vietnam(or the world maybe), cuz the job description and its benefits are amazing(for me). That's it.

// WORKING PROGRESS(AT SCHOOL)

IT Thesis(2nd-year)

Students' managerial(C++)

- Made a C++ project that is for students' managerial, it have some function like Add/delete/edit student information, showing/plus exam score,...

IT Thesis(3rd-4th year)

Clothes shop(Laravel/Html+Css)

Making a fully responsive website using Laravel(We use template project and make it own), have user interface and admin interface working site

+ User interface: Login/register, add to cart, buy,...

+ Admin interface: User management(Add/delete/edit user information), item management(Add/delete edit item information) and some similar function.

// SKILLS
